**Tests requested :**  
Erucic Acid

**Date Received :** 18/06/2018

**Labtest Sample No :** 142795

**Sample Description :** Swede Rape Charger

**Customer Reference :** 16/CS/1121/0032 R/C

| <b>Test</b> | <b>Result</b>              | <b>Specification / Technique used</b>   |
|-------------|----------------------------|---|
| Erucic Acid | 0.00 % C22:1 (Erucic Acid) | Results expressed as % of the total fatty acids. Analysis performed by GC examination of fatty acid methyl esters in accordance with a documented in house method conforming with BS 684 (2.34) and BS 684 (2.35) |

The results given above refer to analyses performed on the material received. Their relationship to the composition of the original bulk will depend on the sampling procedure employed.
