

# Pi Pinnacle For PEAK Yields

## Consistent performance, built for UK conditions

Fully recommended in the UK and proven over recent seasons, Pi Pinnacle delivers reliable, high-end performance across all AHDB regions. Bred in the Cotswolds by Mike Pickford, the UK's last independent OSR breeder, it combines practical breeding with a clear focus on yield.

Pi Pinnacle maintains green leaf area for longer, driving yield through increased pod numbers, higher seed counts and larger seed size. Strong vigour and establishment match leading varieties, supported by 2 million seed packs treated with Integral Pro and Syllas for optimal early development.

## Variety Specification

Variety	Recommendation	Gross Output	LLS	Stem Canker	Verticillium	TuYV	Oil Content
Bachus	UK	98	6	5	[I]	-	45.7
<b>Pi Pinnacle</b>	<b>UK</b>	<b>97</b>	<b>6</b>	<b>4</b>	<b>I</b>	<b>-</b>	<b>45.1</b>
Tom	UK	97	6	5	I	-	45.9
Powerhouse	N	96	7	5	[S]	-	44.1
Annika	E/W	94	7	5	[MR]	R	45.4

A medium-height variety with good autumn vigour, Pi Pinnacle offers a robust agronomic package. It flowers medium to late, helping reduce the risk of frost damage, while reaching maturity in good time to maintain harvest flexibility. Disease resistance is strong, including intermediate resistance to Verticillium, supporting consistent performance in the field.

## Agronomic Features

Resistance to Lodging	Stem Stiffness	Shortness of Stems	Plant Height	Earliness of Flowering	Earliness of Maturity	Pod Shatter Resistance
8.0	8	6	158	5	5	-
