

SY HARNAS

NORTH

Light Leaf Spot resistance

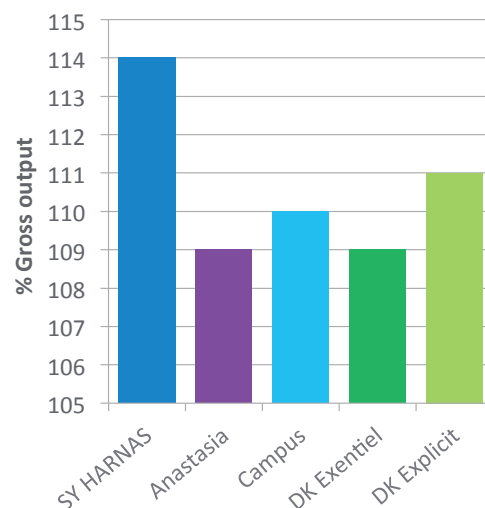

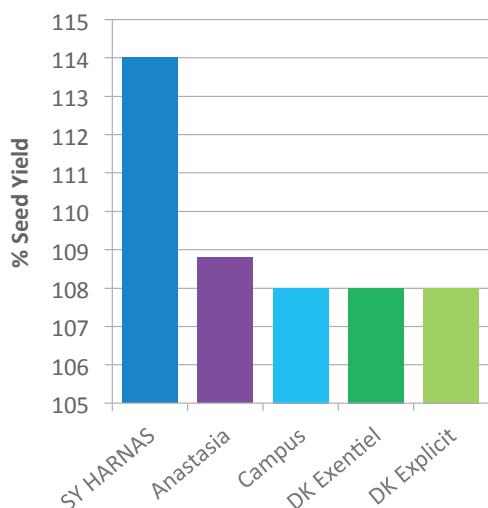

- SY HARNAS offers strong resistance to Light Leaf Spot
- Light Leaf Spot is no longer confined to the Northern regions of the UK
- So regardless of the UK region where SY HARNAS is grown, it is able to cope with high disease pressure situations

CHARACTERISTICS

- SY HARNAS has an impressive 8 score for Lodging characteristics
- SY HARNAS has the highest gross output – 118% and highest seed yield in the North Region
- So, for growers who require superior yield and oil performance, then SY HARNAS is tailor-made for the job.

Recommended List Yield Performance – North
