STRATEGIC REPORT FOR THE YEAR ENDED 30 JUNE 2022

The directors present the Strategic Report of United Oilseeds Producers Limited (the 'Group') for the year ended 30 June 2022.

Review of the business

The surplus for the financial year amounted to £1,111,715 (2021: £983,427). Total shareholders' funds at 30 June 2022 were £14,108,717 (2021: £12,988,491). The Co-operative's net worth rose 0.15% to £664,446.

Achieved during a particularly challenging trading environment, these are an excellent set of results for the United Oilseeds Independent co-operative and its shareholder farmer members. In addition to an 18% increase in profits and 13.17% increase net worth, United Oilseeds also increased the tonnage of commodities it traded by 6.5%, in comparison to the same period last year, with growth in oats tonnages proving particularly noteworthy.

The co-operative has a 30% share of the UK's certified oilseed rape seed market and a similar market share of the total rapeseed crop tonnages traded in the UK. It also has the biggest tonnages of oilseed rape (OSR) under pool management in the UK and is the largest supplier of OSR into ADM's crushing plant in Erith - which is the largest in Europe.

Seed sales to growers and agricultural groups increased over the previous year and was driven by our sales and marketing teams which were able to offer the best performing and market-leading rapeseed varieties.

We benefited from successfully negotiating exclusive agreements to market the UK's top-selling certified oilseed rape varieties, Acacia and Aurelia.

Whilst the UK oilseed rape area is increasing, production will not be enough to meet the UK's annual domestic demand, which has reduced from 1.9 million tonnes in 2021 to approximately 1.8 million tonnes for 2023 owing to the closure of Cargill's OSR processing plant in Hull.

Early estimates for the UK's 2022/3 planted area are around 412,758 hectares, up from an estimated harvested area in 2022 of 360,000 hectares.

This means that the UK will be left some 438,000 tonnes short of self-sufficiency and with international supplies also hindered by availability and the war in the Ukraine, the outlook for OSR market prices (a key driver in a grower's decision to grow oilseed rape) remain bullish.

These results have been achieved in a trading environment of unparalleled economic and operational challenges. Significant increases in energy, farm inputs and transport costs has meant farmers have had to carefully protect and review expenditure and resources.

A greatly reduced availability of haulage and lorry drivers also made logistics and transport to and from stores and ports particularly challenging, especially during harvest. But through improved efficiencies and control of overheads, United Oilseeds managed to improve its margins and financial performance.

STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

Review of the business (continued)

The Board believes the success of the co-operative's financial performance in this period was due to a number of key factors:

- Providing growers with successful and competitive crop marketing services including Fixed Price and Pools Marketing contracts
- Offering a sales portfolio of the market-leading seed varieties across the different sectors of the market
- Having carefully controlled storage capacities within in a network of stores across the UK, providing local storage at competitive prices
- Maintaining very close and positive relationships with all our stakeholder groups including farmer members, customers, major seed breeders, trading institutions, crushers, haulage companies and storekeepers
- The high and continuing domestic demand for rapeseed
- A continuous focus on customer service and improvement plus unique agreements such as our penalty free Produce of Area contracts
- · The skills, commitment and hard work of our loyal staff
- Healthy Bank cash reserves, which at 30 June 2022 stood at £14.775m.

Key performance indicators

Oilseed rape sales volumes increased to 421,132 metric tonnes (2021: 323,163 metric tonnes).

The directors monitor the profitability of the business. The measure used is surplus before tax and other comprehensive income, which was £1,381,121 (2021: £1,187,484) for the year.

The directors are of the opinion that further analysis using KPIs is not necessary for an understanding of the development, performance or position of the business.

Principal risks and uncertainties

Like other commercial organisations in the agricultural sector and beyond, the Company has been impacted by rises in inflation, energy prices and haulage costs. This has led farmer customers to carefully assess and even reduce their inputs. However, for farmers considering planting oilseed rape, this was to some extent counterbalanced by the continuing high UK demand for oilseed rape, which far outstrips domestic supply. The shortage in supply meant market prices for rapeseed generally remained buoyant, which helped to encourage farmers to plant the crop. As a result, in autumn 2022, the UK area planted with rapeseed grew for the second consecutive year.

Nonetheless, market prices for all combinable crop commodities have been seen – and are consistently liable to - sudden and significant swings in value. During the last trading year, the level of this price volatility has exceeded any previously experienced.

Weather conditions are a primary risk in the agri-business sector. Annual oilseed rape volumes, quality and yields are all heavily dependent on weather conditions throughout the crop production cycle. In addition to storms, drought and floods, weather and climate conditions also influence the levels of pests and diseases that can harm the crop.

Future developments

United Oilseeds market share of certified OSR seed sales has continued to increase, currently sitting at around a third of the UK market. The Society again increased the commodity tonnages it traded during the year, rising 6.5% on the previous year, up to 421,132 tonnes.

The Group currently has a long term OSR supply agreement with a significant UK crusher. This important agreement was renewed in the year and is now on a rolling basis.

STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

Directors' statement of compliance with duty to promote the success of the Group

The following statement by the directors describes how they have accounted for the matters set out in section 172 (1) of the Companies Act 2006, as part of their duty to promote the success of the Group.

The Directors acknowledge that one of the primary responsibilities of the Board is to ensure the strategy of the United Oilseeds group achieves long-term success and generates sustainable returns for its members, key to which is maintaining engagement with stakeholders, considering the long-term implications of decisions made, and acting to maintain the highest standards of conduct. This duty has been central to the activities of the Board during the year, as discussed below.

Shareholders

The Society is a wholly owned subsidiary of United Oilseed Producers, a Cooperative and Community Benefit Society. As a wholly owned subsidiary of the Society, the directors ensure that the strategy and practices of the Group are fully aligned with the interests of the Society and its members, where appropriate. The key decision in this regard is assessing the level of dividend that can be returned to the Society. In making this assessment, the directors ensure that sufficient reserves are left in the Society to protect its long-term future.

Employees

United Oilseeds is committed to providing an inclusive working environment and providing ongoing training and career development opportunities. The Board's remuneration committee meets regularly to discuss employee engagement and rewards.

Environment

The directors recognise that the impact of climate change could be significant on United Oilseeds and its members, as yields are heavily dependent on weather conditions in the year. As such, the directors have taken steps to reduce carbon emissions of the Group where possible, such as with the use of energy saving measures in the facilities, such as energy efficient lighting, and encouraging the reduction in car usage wherever possible, for example by the use of video conference calling. In the year, United Oilseeds staff produced an estimated 34 metric tonnes of carbon dioxide from car usage (2021: 104 MT), based on the listed emissions of the respective vehicles. Furthermore, energy usage from the facilities totalled 69,844 kilowatt hours in the year (7 tonnes CO2) (2021: 77,843 KWh, 7 tonnes CO2), based on metered readings. The directors have not disclosed carbon emissions from the transport of commodity loads, as United Oilseeds does not control the vehicles used or routes taken. Facility energy usage from gas and electricity is taken directly from metered bills from the Group's energy suppliers. Emissions from car usage has been calculated indirectly from the quantity of fuel purchased, and the car manufacturer quoted fuel efficiency and carbon dioxide emission figures. The Group's intensity figures for the year are 0.23 tCO2 per £m revenue (2021: 0.86) and 1.3 tCO2 per employee (2021: 3.6).

Suppliers

A number of the Group's suppliers are also members of the Society. The Group is committed to improving the experience of all of its suppliers and generating long-term sustainable returns for its members. Material contracts are subject to rigorous cost management and review by the Board.

This report was approved by the board and signed on its behalf by:

T Stuart
Director

Date: 30 January 2023

Troy Stuart

DIRECTORS' REPORT FOR THE YEAR ENDED 30 JUNE 2022

The directors present their annual report and the audited financial statements of United Oilseed Producers Limited (the "Society") and the audited consolidated financial statements of the United Oilseed Producers Limited and its subsidiaries (the "Group") for the year ended 30 June 2022.

Principal activity

The principal object of the Society consists of the marketing of its members' oilseed, pulses and oat crop.

The Society has an agreement with United Oilseeds Marketing Limited, a UK registered company and wholly owned subsidiary, with the effect that, members' contracts are managed and executed by United Oilseeds Marketing Limited. All oilseed and protein crop trading and accounting is carried out through United Oilseeds Marketing Limited.

Results and dividends

The surplus for the financial year amounted to £1,111,715 (2021: £983,427).

A distribution of £440,000 was declared and paid during the year relating to financial year ended 30 June 2022 (2021: £320,000). In addition, no dividends (2021: £Nil) were paid during the year relating to prior years.

Directors

The directors who served during the year and up to the date of signing the financial statements were:

T Stuart A T Cragg

R A Hall

B J Jackson

C S McGregor

R J Sullivan

Going concern

The Group meets its day-to-day working capital requirement through its bank facilities. The Group's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Group should be able to operate within the level of its current facilities. After making enquiries, the directors have a reasonable expectation that the Society has adequate resources to continue in operational existence for the foreseeable future. The Society and its Group therefore continue to adopt the going concern basis in preparing its financial statements.

Future developments

Future developments are disclosed in the Strategic Report on page 3.

Streamline Energy and Carbon Report (SECR)

Streamline Energy and Carbon Reporting are disclosed in the Strategic Report on page 4.

Directors' Indemnities

The Group maintains liability insurance for its directors and officers. Throughout the year to 30 June 2022, and also at the date of approval of the financial statements, the Group has also provided indemnity for its directors and the secretary, which is a qualifying third party indemnity provision for the purposes of the Companies Act 2006.

Charitable donations

During the financial year the Group made non-political charitable donations amounting to £Nil (2021: £654).

DIRECTORS' REPORT (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

Financial risk management

The Group's operations expose it to a variety of risks that include price risk, credit risk and liquidity and cash flow risk. Given the size of the Group the directors have not delegated the responsibility of monitoring financial risk management to a sub-committee of the Board. Management implements the policies set by the Board of directors.

Price risk

The Group is exposed to price risk in its trading. Its trading employees manage this exposure through the various pool arrangements, regular monitoring of Matif prices and internal position reporting. The Group uses oilseed rape futures along with other relevant commodity futures and foreign currency forward contracts, to hedge its exposure to price risk.

Credit risk

The Group is exposed to credit risk on its debtor and cash balances. This is mitigated by relationships with long-term customers, credit control and netting arrangements with farmer customers. The Group holds a separate non distributable reserve to provide cover against the risk of any potential future bad debts.

Only banks with an appropriate credit rating are used for the Group's cash balances.

Liquidity and cash flow risk

Liquidity and cash flow risk are managed by the preparation of budgets and monthly management accounts and maintaining banking facilities with a major UK bank that are considered sufficient to meet the cash flow needs of the Group. The facilities are reviewed on an annual basis.

Statement of Directors' Responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Co-operative and Community Benefit Society law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the Group and parent Society financial statements in accordance with United Kingdom Accounting Standards including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") applicable law (United Kingdom Generally Accepted Accounting Practice). Under Co-operative and Community Benefit Society law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and the Society and of the surplus or deficit of the Group and Society for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102,, have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and the Society will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Society's transactions and disclose with reasonable accuracy at any time the financial position of the Society and the Group and to enable them to ensure that the financial statements comply with the Co-operative and Community Benefit Societies Act 2014. They are also responsible for safeguarding the assets of the Society and the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

DIRECTORS' REPORT (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

Statement of disclosure of information to auditors

Each of the persons who are directors at the time when this Directors' Report is approved has confirmed that:

- so far as the director is aware, there is no relevant audit information of which the Society and the Group's auditors are unaware; and
- the director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the Society and the Group's auditors are aware of that information.

Independent auditors

Under section 83(1) of the Co-operative and Community Benefit Societies Act 2014, PricewaterhouseCoopers LLP will be deemed to have been reappointed as auditors 28 days after these financial statements were sent to members or 28 days after the latest date prescribed for filing the financial statements with the FCA, whichever is earlier.

This report was approved by the board and signed on its behalf by:

T Stuart Director

Date: 30 January 2023

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF UNITED OILSEED PRODUCERS LIMITED

Report on the audit of the financial statements

Opinion

In our opinion, United Oilseed Producers Limited's Group financial statements and Society's financial statements (the "financial statements"):

- give a true and fair view of the state of the Group's and the Society's affairs as at 30 June 2022 and of the Group's and Society's income and expenditure and the Group's cash flows for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of the Co-operative and Community Benefit Societies
 Act 2014 and the Co-operative and Community Benefit Societies (Group Accounts) Regulations 1969.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise: the Group and Society's Balance Sheets as at 30 June 2022; the Group and Society's Income and Expenditure Accounts, the Group Statement of Comprehensive Income, the Group Statement of Cash Flows, and the Group and Society's Statement of Changes in Equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Group's and the Society's ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the Board's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Group's and the Society's ability to continue as a going concern.

Our responsibilities and the responsibilities of the Board with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF UNITED OILSEED PRODUCERS LIMITED (CONTINUED)

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of the Directors' Responsibilities, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Group's and the Society's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Society or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Society/industry, we identified that the principal risks of non-compliance with laws and regulations related to those with a direct impact on the financial statements, for example UK tax legislation, the Co-operative and Community Benefit Societies Act 2014 and the Co-operative and Community Benefit Societies (Group Accounts) Regulations 1969. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting of inappropriate journals to manipulate the results of the Group and Society. Audit procedures performed included:

- Identifying and testing journal entries, for example, those with unusual account combinations to revenue or cash;
- Reviewing Board minutes and inquiring with management; as to any known or suspected non-compliance with laws and regulations; and
- Incorporating an element of unpredictability in our audit procedures, for example by varying the nature, timing or extent
 of our testing.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Society as a body in accordance with Section 87 (2) and Section 98(7) of the Co-operative and Community Benefit Societies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF UNITED OILSEED PRODUCERS LIMITED (CONTINUED)

Other required reporting

Co-operative and Community Benefit Societies Act 2014 exception reporting

Under the Co-operative and Community Benefit Societies Act 2014 we are required to report to you if, in our opinion:

- a satisfactory system of control over the Society's transactions has not been maintained; or
- we have not received all the information and explanations we require for our audit; or
- proper books of account have not been kept by the Society; or
- the Society's financial statements are not in agreement with the books of account.

We have no exceptions to report arising from this responsibility.

Paul Nott (Senior Statutory Auditor)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

1. General information

The principal activity of United Oilseed Producers Limited (the "Society") is that of a commodity trader and seed merchant.

The Society is a registered society under the Co-operative and Community Benefit Societies Act 2014 and is domiciled in England.

The address of the registered office is:

St James House Gains lane Devizes Wiltshire SN10 1FB

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared on the going concern basis, under the historical cost convention as modified by the recognition of derivative financial instruments at fair value, and in accordance with the Co-operative and Community Benefit Societies Act 2014 and applicable accounting standards in the United Kingdom, comprising FRS 102. The principal accounting policies which have been applied consistently are set out below.

The preparation of financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

The following principal accounting policies have been applied consistently throughout the year:

2.2 Exemptions for qualifying entities under FRS 102

The Society has taken advantage of the exemption, under FRS 102 paragraph 1.12(b), from preparing a Statement of Cash Flows, on the basis that it is a qualifying entity and includes the Society's cash flows in its own consolidated financial statements.

The Society have taken advantage of the exemption, under FRS 102 paragraphs 11.39 - 11.48A and 12.26 - 12.29, from certain financial instruments disclosures due to equivalent disclosures being provided in its own consolidated financial statements.

The Society has taken advantage of the exemption, under FRS 102 paragraph 33.7, from disclosing the total compensation of key management personnel, on the basis that it is a qualifying entity and includes the Society's key management compensation in its own consolidated financial statements.

2.3 Related party transactions

The Society has taken advantage of the exemption, under FRS 102 paragraph 33.2, from disclosing transactions with members of the same Group that are wholly owned.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

2. Accounting policies (continued)

2.4 Basis of consolidation

The Group financial statements consolidate the financial statements of the Society and its subsidiaries. All companies within the Group apply the same accounting policies consistently and prepare their financial statements to the same date. Profits and losses on intra-group transactions are eliminated on consolidation.

The consolidated financial statements have been prepared using acquisition accounting.

2.5 Going concern

The Group meets its day-to-day working capital requirement through its bank facilities. The Group's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Group should be able to operate within the level of its current facilities. After making enquiries, the directors have a reasonable expectation that the Society has adequate resources to continue in operational existence for the foreseeable future. The Society and its Group therefore continue to adopt the going concern basis in preparing its financial statements.

2.6 Turnover

Turnover, which excludes value added tax and trade discounts, represents the invoiced value of goods and services supplied. It also includes commissions' receivable on transactions undertaken on behalf of the commodity pools. Turnover is recognised when the risks and rewards of ownership of the goods are substantially passed to the customer being either delivery to the customer or when the customer confirms acceptance of goods held at third party storage locations.

2.7 Intangible assets and amortisation

Intangible assets include goodwill and computer software assets.

Goodwill is the difference between amounts paid on acquisition of a business and the fair value of the identifiable assets and liabilities. It is amortised to the Income and Expenditure Account over its estimated economic life. Goodwill is amortised at 15% per annum on a straight line basis.

The Group evaluate the carrying value of goodwill in each financial year to determine if there has been impairment in value, which would result in the inability to recover the carrying amount. When it is determined that the carrying value exceeds the recoverable amount, the excess is written off to the Income and Expenditure account.

Software assets are stated at cost less accumulated amortisation. Cost includes original purchase cost plus the cost of third parties and internal employee costs that are directly associated with developing the software assets. Amortisation is recognised to write off the cost of software assets over 5 years.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

2. Accounting policies (continued)

2.8 Tangible assets

Tangible assets are stated at historic purchase cost less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. Depreciation is provided on all tangible fixed assets so as to write off the cost less the estimated residual value of the relevant assets over their anticipated useful lives at the following annual rates on a straight line basis:

Freehold property - not depreciated

Motor vehicles - 15%

Office equipment - between 15% and 33%

Computer equipment - 33%

Freehold property has not been depreciated as in the opinion of the directors the residual value is not materially different from the carrying value and hence any depreciation is immaterial.

2.9 Investments

Investments are payments made to storage facilities for the long-term use of the location.

Investments are initially recorded at cost. The full cost of the investment is repayable by the storage provider at the end of the term of the contract. The investments are reviewed periodically for impairment. An impairment is considered to have occurred where the amount repayable by the storage location is lower than the carrying value of the investment.

2.10 Stocks

Stocks comprise commodities for resale which are valued at the lower of cost and net realisable value and measured on a weighted average basis. Cost includes all direct expenditure incurred in bringing the product to its present location and condition. Net realisable value is the price at which stocks can be sold in the normal course of business after allowing for the costs of realisation. Where necessary, provision is made for obsolete, slow moving and defective stocks.

2.11 Debtors

Short-term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.12 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Group Statement of Cash Flows, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Group's cash management.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

2. Accounting policies (continued)

2.13 Derivative financial instruments

Forward commodity contracts and foreign exchange used in the business are derivative financial instruments. Such contracts are recognised at fair value with changes in fair value recognised in the profit and loss account unless hedge accounting is applied. Realised gains and losses are charged against cost of sales together with the underlying purchase being hedged. Unrealised gains and losses on open contracts are presented separately within operating profit.

Unrealised gains and losses on contracts qualifying as cash flow hedges (which typically comprise the forward foreign exchange contracts) are recognised initially in a cash flow hedge reserve and are subsequently recycled to the income statement at the same time the hedged item is recognised.

Unrealised gains and losses on contracts qualifying as fair value hedges (which typically comprise commodity futures) are recognised in the Income and Expenditure Account account together with the offsetting unrealised gain or loss on the hedged item being the future grain sale or purchase commitment.

2.14 Creditors

Short-term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.15 Foreign currencies

Monetary assets and liabilities expressed in foreign currencies are translated into sterling at the rates of exchange ruling at the Balance Sheet date. Transactions in foreign currencies are translated into sterling at the rate ruling at the date of the transaction. Differences arising are dealt with in the Income and Expenditure account.

2.16 Finance costs

Finance costs are charged to the Group Income and Expenditure Account over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2.17 Operating leases

Rentals paid under operating leases are charged to the Group Income and Expenditure Account on a straight line basis over the lease term.

2.18 Pensions

Defined contribution pension plan

The Group operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Group pays fixed contributions into a separate entity. Once the contributions have been paid the Group has no further payment obligations.

The contributions are recognised as an expense in the Group Income and Expenditure account when they fall due. Amounts not paid are shown in accruals as a liability in the Group Balance Sheet. The assets of the plan are held separately from the Group in independently administered funds.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

2. Accounting policies (continued)

2.19 Interest income

Interest income is recognised in the Group Income and Expenditure account using the effective interest method.

2.20 Borrowing costs

All borrowing costs are recognised in the Group Income and Expenditure Account in the year in which they are incurred.

2.21 Provisions for liabilities

Provisions are made where an event has taken place that gives the Group a legal or constructive obligation that probably requires settlement by a transfer of economic benefit, and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to the Group Income and Expenditure account in the year that the Group becomes aware of the obligation, and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet.

2.22 Current and deferred taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the Balance Sheet date, where transactions or events have occurred at that date that will result in an obligation to pay more, or right to pay less or to receive more tax with the exception that deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the Balance Sheet date.

2.23 Distributions

Distributions to members are shown within surplus on ordinary activities before taxation and are tax deductible. Distributions are paid to members based on their levels of trade with the Society's trading subsidiary.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

3. Judgements in applying accounting policies and key sources of estimation uncertainty

The Group makes estimates and assumptions concerning the future that can impact on balances recognised in the financial statements. Judgements and estimates are based on historical experience and various other factors that are considered reasonable in the circumstances but may differ from subsequent actual results.

The critical accounting judgements that are considered to be significant in the context of these financial statements include:

1. Revenue recognition

Sales made through the Group's Pool arrangements are treated on a net basis with only the commission earned by the Group being recognised in these financial statements. The directors take the view that the Group is acting as an agent for its members, passing on market prices achieved, less commission earned. The gross value of transactions traded through Pool arrangements amount to £52,075,651 (2021: £44,124,486).

2. Derivative financial instruments

The Group uses derivative financial instruments in the form of currency forward contracts and commodity futures to hedge its exposure to currency and price risk on forecast and contracted future sales and purchases. In order to apply hedge accounting, the directors have assessed that the hedges are expected to be effective and that they match with expected future sales and purchases.

The estimate that is considered significant in the context of these financial statements is:

1. Valuation of derivatives

Derivative financial instruments are measured at fair value which is based on the forward price of the relevant comodity or currency contract. The final settlement value of these instruments will depend on the movement of market prices between the balance sheet and the date the contract matures. This impacts the carrying value of individual assets and liabilities which could change by a material amount. However, because of the hedging policy set out in note 22, the potential net movement in fair values of the derivatives and the related forward sales and purchase commitments is highly unlikely to be material.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

4. Turnover

An analysis of turnover by class of business is as follows:

		2022 £	2021 £
	Oilseed rape, other commodities and seed sales	175,450,736	128,680,546
	Commission on pool sales	438,347	463,775
		175,889,083	129,144,321
	Analysis of turnover by country of destination:		
		2022 £	2021 £
	United Kingdom	146,890,043	103,051,120
	Rest of Europe	28,999,040	26,093,201
		175,889,083	129,144,321
5.	Auditors' remuneration		
		2022 £	2021 £
	Audit of the Society's subsidiaries	41,200	38,500
	Fees payable to the Group's auditors in respect of:		
	Taxation compliance services	14,000	16,000
	All other services	7,210	6,800
		21,210	22,800

Auditors' remuneration for audit services to the Society was borne by a subsidiary company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

6. Employees

Staff costs, including directors' remuneration, were as follows:

	Group 2022 £	Group 2021 £
Wages and salaries	2,005,219	1,951,317
Social security costs	254,090	238,870
Cost of defined contribution scheme	110,069	110,868
	2,369,378	2,301,055
	<u> </u>	

The average monthly number of employees, including the directors, during the year was as follows:

	2022 Number	2021 Number
Trading	13	14
Administration	18	19
	31	33

The Society does not have any employees (2021: none).

7. Directors' remuneration

- Derivative financial instruments (1,126,123)	-
(2,238,577)	(699,541)

Derivative financial instruments

The Group enters into derivative financial instruments in the form of forward foreign currency contracts and commodity futures to mitigate foreign exchange risk and price risk on contracted and expected future sales and purchases. All contracts taken out are hedges of underlying sales and purchases. The Group does not trade speculatively. When these derivative financial instruments can meet the criteria for hedge accounting in FRS 102, hedge accounting is applied. This is the case for both currency and commodity contracts in the current year.

At 30 June 2022, the fair value of currency contracts held as cash flow hedges was a liability of £30,388 (2021: £39,903). The net fair value of commodity contracts held as fair value hedges was a liability of £44,057 (2021: asset of £659,838). The gross asset and liability positions are shown on page 34.

The commodity contracts have been designated as fair value hedges of grain sales or purchase commitments. Accordingly, the hedged commitment has also been recognised as a financial asset/liability at fair value.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

20. Deferred taxation

Group

21.

		2022 £
At beginning of year		(22,163)
Charged to profit or loss		4,030
Charged to other comprehensive income		(2,189)
Adjustment in respect of prior years		46,102
At end of year	=	25,780
The deferred taxation balance is made up as follows:		
	oup 2022 £	Group 2021 £
Accelerated capital allowances 30,	,447	(15,597)
	,667)	(6,566)
	,780	(22,163)
Members' shares		
	ctive ares £	Forfeited shares £
At 1 July 2021 34,	,620	99,010
New issues 1,	,185	-
Forfeit shares	(45)	45
At 30 June 2022 35,	,760	99,055

Members' shares are split between those members who have traded with the Group in the financial year and those who have not traded but still retain a share in the Society.

Each member may hold one share in the Society. Each share has a nominal value of either £1 or £15. The shares do not have a right to any distribution. Each share entitles the member to one vote. Shares are non-transferable.

During the year, new member shares of £1,185 were issued (2021: £900). Upon cessation of membership, active shares are cancelled and forfeited and transferred to the forfeited shares account. Forfeited shares are transferred to active shares when a previous member reactivates its account with the Society. During the financial year, 45 (2021: 45) shares were transferred from the forfeited share capital account.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

22. Reserves

Capital reserve

The capital redemption reserve is a non-distributable reserve amounting to the repurchase of shares in the Group's subsidiary.

Cash flow hedge reserve

The cash hedge reserve relates to unrealised gains and losses on foreign exchange futures contracts which qualify as effective hedges of future sales and purchases, net of related deferred tax.

Other reserves

The other reserve consists of a balance set aside from the Income and Expenditure Account to cover the risk of potential future bad debts.

Profit and loss account

The profit and loss account represents the accumulated profits, losses and distributions of the Group.

23. Pension commitments

Contributions are made on behalf of the employees to their personal pension plan. Contributions are charged in the accounts as incurred. Total pension costs charged in the year were £110,069 (2021: £110,868).

24. Distribution

Distributions declared and paid in the year	440,000	320,000

25. Commitments under operating leases

At 30 June the Group had future minimum lease payments due under non-cancellable operating leases as follows:

	Group 2022 £	Group 2021 £
Not later than 1 year	-	67,092
Later than 1 year and not later than 5 years	-	121,650
	-	188,742

The Society has no commitments (2021: none).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

26. Related party transactions

Advantage has been taken of the exemption from disclosing transactions and balances with other group companies as permitted by the exemption disclosed in note 2.2.

Directors enter into transactions with the Group, which are at arm's length and on the same terms as are available to other customers with a similar size of enterprise. These are summarised as follows for the year ended 30 June 2022:

			Balance
			owed
			(to)/from at
	Sales	Purchases	30 June
	value	value	2022
	£	£	£
